Berdasarkan situs SIMRS CENDANA, permasalahan yang dialami oleh pihak rumah sakit salah satunya yaitu :

- Lemahnya sistem pengendalian manajemen di dalam pengelolaan rumah sakit yang mengakibatkan terjadinya inefisiensi dan penurunan kinerja operasional (**management control**).
- Kurangnya sumberdaya manusia dilingkungan rumah sakit yang mampu mengembangkan suatu sistem informasi manajemen secara **efektif dan efisiensi** (system brainware).

# **Solution Statement**

Menyediakan layanan yang membantu dalam  
memanajemen ruangan rumah sakit.

# Tech Section

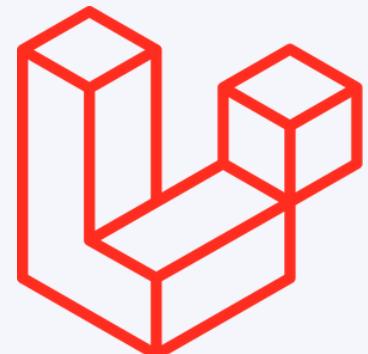

# Our Condition

**We want to create a good website with  
simple and faster implementation**

Here is my weapon and also  
my magic ✨

Laravel

# Why i choose

- MVC framework
- Have many resource
- Nice ecosystem
- Opinionated
- ~~Lamborghini Taylor~~
- ~~Otwell~~

# Why i choose

B

- Has ready-to-use components
- Has useful utility class
- 10 faster developing UI

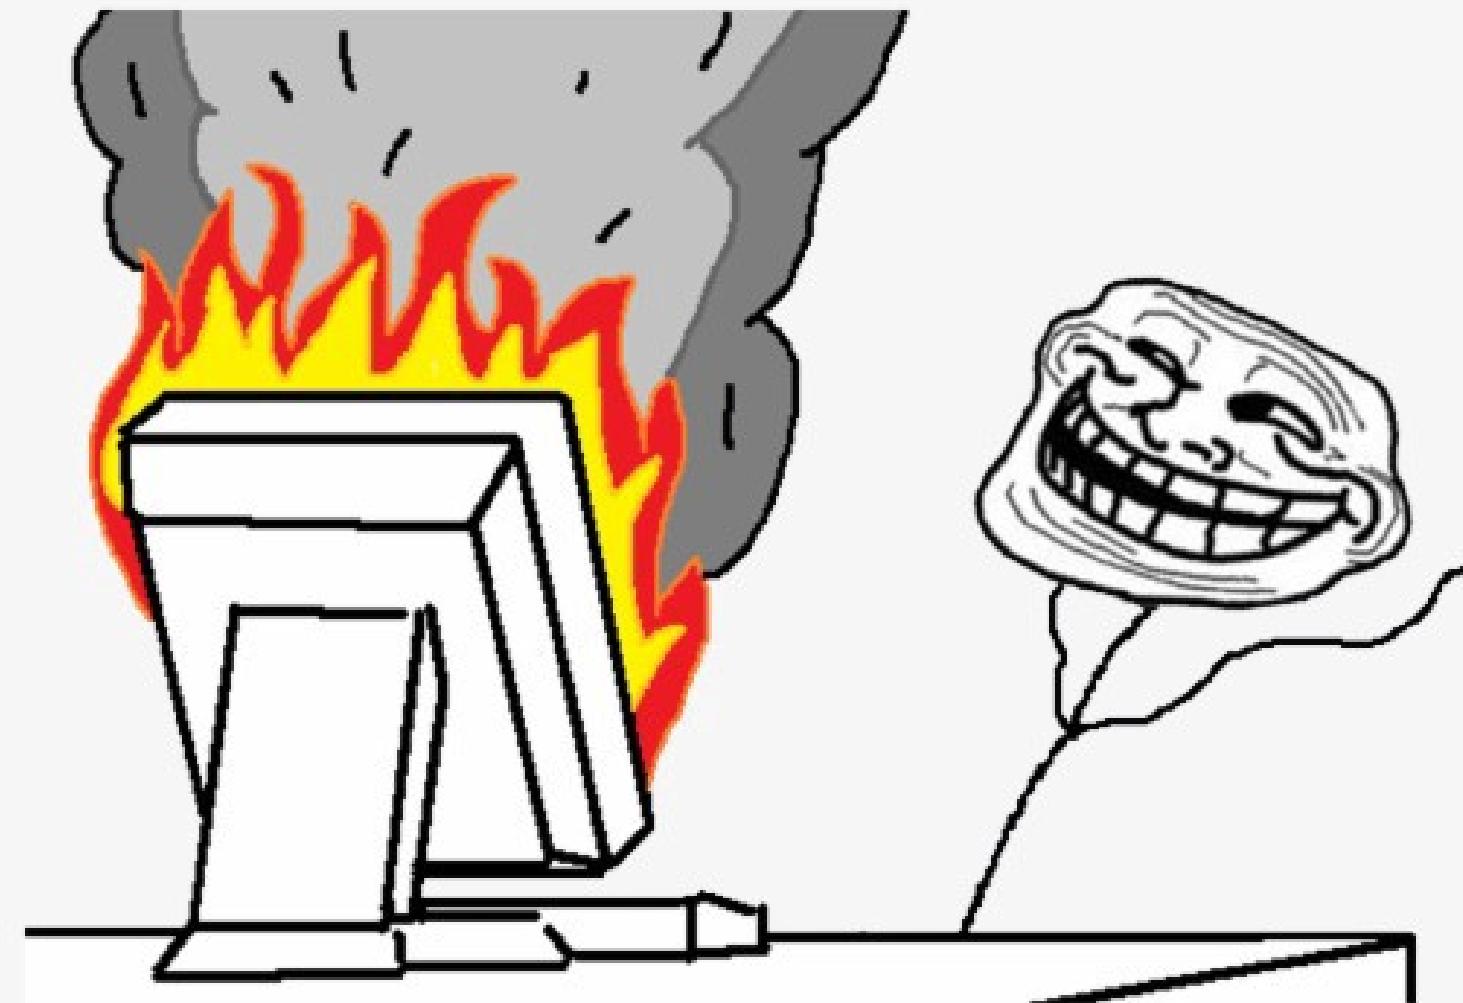

# Why i choose

- Easy to implement with Laravel Eloquent
- Relational database type

# Let's see how it's works!

# THANK YOU!
